

PRESS RELEASE

VOLAR and the National Dayak Customary Assembly enter a collaboration to establish Nusantara Air, a regional mobility air service in Kalimantan, Indonesia.

10 September 2023 - Volar Air Mobility Limited (“Volar”) and the National Dayak Customary Assembly (“NDCA”) enter a collaboration to establish Nusantara Air, a regional mobility air service in Kalimantan, Indonesia.

The NDCA is an official council that holds the highest jurisdictional authority over the native people of Dayak, one of the foremost traditional ethnic groups in Indonesia.

The emergence of Kalimantan as Indonesia’s new capital heralds a significant opportunity to host the potential of Green Aviation. This is well aligned with President Joko Widodo’s agenda of transforming Indonesia into an electric vehicle hub by 2030, and his broader vision of achieving carbon neutrality by 2060. With the establishment of Nusantara Air, it is hoped that this will enable remote communities within the Kalimantan region to access a green and meaningful travelling alternative, empower the populace to make sustainable choices, and educate to bring awareness on the importance of environmental conservation Indonesia’s future generations.

Volar Air Mobility Limited

Volar Air Mobility Limited is a Hong Kong-based green aerial ride-hailing software company aiming to catalyse the global adoption of environmentally responsible travelling alternatives.

Volar is committed to offering a Safe, Affordable, on-demand Flexibility, and zero carbon Emission (SAFE) private air travel experience enabled by proprietary in-house technology platform specifically designed for electric aircraft. The use cases are broad and encompasses island hopping, tourism, access to rural areas with poor road infrastructure, medical logistics and evacuation, border surveillance and farming. Additionally, it enables a private aviation option for those seeking to travel safely while minimizing infectious disease risk. For more information, please visit www.volarairmobility.com
