VOLAR and One Energy (HK) Limited signed an MoU to develop a BaaS model for batteries.

14 February 2023 - Volar Aerospace Limited (“Volar”) and One Energy (HK) Limited (“One Energy”) have today signed a Memorandum of Understanding (MoU) to co-develop a Battery-as-a-Service (BaaS) model for advanced green aircraft battery technologies.

One Energy is a one-stop solution provider of EV battery products and services. With in-depth knowledge of swappable battery systems, One Energy services a comprehensive suite of vehicle types spanning electric motorcycles, drones, electric cars, electric aircrafts, and additionally provides other innovative applications for new energy.

This MoU sets the direction to develop a proprietary and pioneering BaaS model for application in commercial electric aviation.

Volar and One Energy (HK) are of the view that there are synergistic benefits between their respective businesses and a superior outcome will result by combining their respective strengths.

Volar Air Mobility Limited

A Hong Kong-based green aviation technology company, Volar aims to catalyse the Malaysian aviation industry through the use of green aviation technology.

Volar is committed to offering a Safe, Affordable, on-demand Flexibility, and zero carbon Emission (SAFE) private air travel experience enabled by proprietary in-house technology platform specifically designed for electric aircraft. The use cases are broad and encompasses island hopping, tourism, access to rural areas with poor road infrastructure, medical logistics and evacuation, border surveillance and farming. Additionally, it enables a private aviation option for those seeking to travel safely while minimizing infectious disease risk. For more information, please visit www.volarairmobility.com
